

# 1/2 Glutton® Recycling Station

A **Newell Rubbermaid** Company

## Productivity **Key Features / Benefits**

- » 46 gallon centralized capacity provides sortation and containment for up to 2 separate material streams.
- » Multiple restrictive-opening hole shapes and various color coded iconic and/or word labels provide flexibility, and help minimize contamination by giving visual cues for material identification.

## Aesthetics

- » Fully integrated station gives credibility to building recycling program and drives recycling compliance.

## Durability

- » All plastic construction resistant to corrosion, withstands impacts, and has a low risk of scratching floors and snagging carpets. Smooth, rounded surfaces and coated labels allow for easy cleaning

Each kit contains:

- 1 Glutton® Receptacle
- 2 Slim Jim® Receptacles
- 1 Lid frame
- 1 Label pack (Same as existing Glutton Recycling Station)
- 3 Sortation Inserts (Slot, Square, Circle)

Sortation Inserts now available as replaceable components

**Launch date - April 10<sup>th</sup> 2009**
